

#### SERVICES PROVIDED BY GCI

- Owner's Authorized Representative (OAR)
- Project Management (PM)
- Design Management and Review
- Coordination with Rental Car Tenants
- Inspection

#### MAIN PROJECT ELEMENTS

- Buildings to house offices and mechanical rooms.
- 27 new Car Washes
- New Fueling System and 10 new UST's with 210 new Dispensers
- Siemens 300C Distributed Drive Technology
- Modify Existing Electrical, Sanitary and Storm Systems

## Orlando International Airport (OIA) BP-409, Rent-A-Car QTA and Support Facilities

The project was to design and construct new and expanded rental car quick turnaround areas (QTA's) and associated improvements to the Terminal A and B rent-a-car facilities at the Orlando International Airport.

The project included expansion, rehabilitation and reconfiguring Terminal A QTA's including new fueling and car wash facilities – Building footprint of 39,955 SF; new Terminal B QTA's including new fueling and car wash facilities – Building footprint of 17,039 SF; conversion of Terminal A Garage QTA to rental car ready return spaces; rental car jockey road improvements; and constructing of service roads inside the Terminal A QTA – Overall QTA Lease Area both A & B Terminals of 1,072,825 SF.

The project also included major modification to pedestrian and roadway directional signs directing passengers to and from these new facilities.

**CONSTRUCTION COST: \$42,720,758**  
**COMPLETION DATE: April 2010**
