ORLANDO INTERNATIONAL AIRPORT BP-466 Landside AHU HVAC NTC Various Levels Ticket Lobby Modification Program

This project replaced the ancillary air handling units at the main Landside Building, including most associated ductwork for a total of 38 units on Levels 1,2,3,4, and 10. All electrical power and systems were replaced back to the source panels. This project was the “sister project” to BP-447 and was done simultaneously to coordinate work on Level 3.

CONSTRUCTION COST: \$10,098,000
